

AADITI KULKARNI

SAP Commerce Cloud Developer | ERP Business Analyst | 3.5 Years Experience
+91 8446053520 | aaditiavinashk@gmail.com | Mumbai, Maharashtra | linkedin.com/in/aaditi-kulkarni29

PROFESSIONAL SUMMARY

SAP Certified Commerce Cloud Developer with 3.5 years of end-to-end ERP implementation experience at DXC Technology. Proven track record of delivering scalable B2B/B2C e-commerce solutions with zero post-launch escalations. Expert in SAP Hybris architecture, Solr search optimisation, Impex/DataHub pipelines, and cross-functional stakeholder management. Currently pursuing MBA in FinTech (BITS Pilani, 2025-27) to deepen business acumen. Seeking a Senior SAP Consultant or Lead Analyst role to drive enterprise digital transformation at scale.

SAP CERTIFICATIONS

- SAP Certified Professional – Developer – SAP Commerce Cloud
- SAP Certified Associate – Business User – SAP Commerce Cloud

TECHNICAL SKILLS

SAP / ERP: SAP Commerce Cloud (Hybris), Impex, DataHub, Flexible Search, WCMS/Backoffice, ServiceNow ITSM

Languages: Java, J2EE, Spring Framework, Python, SQL, MySQL, PostgreSQL

Architecture: Microservices, REST APIs, Payment API Integration, Apache Solr

DevOps / Cloud: AWS, Docker, Jenkins, GIT, Redis, Kafka, Kibana

Methodologies: Agile / Scrum, BRD & TDD Documentation, Requirements Gathering

Analytics: Data Analysis, Data Visualisation, FinTech Analytics

Web Technologies: HTML/CSS, JSP, Servlets, Angular, NodeJS

PROFESSIONAL EXPERIENCE

Analyst II – ERP Package Applications (SAP Commerce Cloud)

DXC Technology | Mumbai, IN

Mar 2023 – Present

- Architected and delivered scalable B2B and B2C storefront solutions on SAP Commerce Cloud (Hybris), consistently completing complex Agile user stories on schedule with zero post-launch escalations across all releases.
- Overhauled platform search and discovery by customising Apache Solr indexing, Value Providers, and Populator-Converter design patterns, improving search relevance and page-load performance.
- Designed and managed data modelling and orchestration pipelines via Impex, DataHub, and Flexible Search, automating workflows and eliminating recurring transaction reconciliation errors.
- Served as technical liaison between business analysts, developers, and C-suite stakeholders — converting ambiguous requirements into structured BRDs and TDDs, reducing rework cycles by streamlining the requirements process.
- Built an AI-driven chatbot using Spring Framework and custom REST APIs within sprint timelines, boosting storefront digital engagement and deflecting routine support queries.
- Engineered WCMS/CMS components and Backoffice configurations for personalised storefront experiences, maintaining a zero production-defect record across all deployments.
- Spearheaded backend ledger integrity audits using Java and Spring, verifying transaction data accuracy and ensuring platform compliance with financial reporting standards.
- Led cross-functional release coordination and production monitoring under strict SLAs via ServiceNow, maintaining a spotless zero-escalation track record.
